Claire Parker
Statement of Intent

I, Claire Parker, am running for the office of Executive Secretary. I will implement effective and efficient mechanisms to help the Student Government Association communicate throughout our campus. I will improve and streamline SGA communication processes and change the conversation we have with all areas of the Capstone. I hope to build on existing networks - our website and archives - and create a database for all SGA sponsored events. This student event directory will serve as a central location for all SGA initiatives, allowing students to see how SGA is working to improve our campus. I will expand the website to include a spotlight section for all SGA officials to explain their initiatives and update the student body on their work. As your Executive Secretary, I will engage our campus and help all students work together to change the Capstone.
