Dalton Beasley  
Statement of Intent

My name is Dalton Beasley, and I am running to be your next Vice President of Student Affairs. In my three years at the Capstone, I have put my time, my effort, and my abilities towards making our time here at the University of Alabama an experience that will impact students for decades to come. As students, we have faced many challenges and difficulties, yet these bumps and bruises have helped shaped our home here at the Capstone. We have seen progress over the past three years far surpass previous years, but we must seize this opportunity. If elected, I plan to continue the traditions and values we all cherish, all while moving forward and addressing problems we see on a daily basis. As a student, a campus leader, but most importantly, as a friend, I plan to act as the voice of reason for all students. As your Vice President of Student Affairs, my goal is to implement ideas and projects that benefit the sound minds and outstanding abilities of every single student on this campus. By pushing towards progress, purpose, and passion, I know these goals and dreams of working towards a better University will come to life.
