Patrick Fitzgerald  
Statement of Intent

Over the last three years in SGA, I’ve constantly fought for reforms that would help make SGA into the organization that we students deserve. I am the proud author of a number of bills that would put more power into the hands of all 37,000 students here at the Capstone.

I'm proud to be running on the platform that provides the most money and opportunities for new scholarships on campus, the most inclusive path for people to keep up with and get involved in the campus political process, the most relief for students more worried about the next meal they’re going to eat than the next test they'll take, and the strongest, most accountable reforms on safety and sexual assault on and off of this campus.

I want to be your President, as a fair and unifying voice for everyone. At the end of the day, I don’t care what affiliations you hold. These issues we’re trying to solve don’t just affect one section of campus, but all of us. If you give me your one vote, I promise I’ll give you my one year left on campus to do everything I can to rebuild our SGA for everyone.
